HBJ Book of Lists: A business resource guide

Welcome to our
2022 Book of Lists
publication.

As we head into a new year,
there will be even greater hopes
for a return to normalcy.

What the new normal looks
like is anyone's guess following
nearly two years of dealing with a
pandemic. But many economists
and business leaders are optimistic
about the year ahead in terms of
how the economy will perform.

That makes HBJ's Book of Lists
all the more relevant as it helps
inform the region's business, civic

Greg Bordonaro

and nonprofit
leaders as they plan
and strategize for
2022.

Our hope is that
you will use this
book as a reference
guide and that the industry
listings and contacts will assist you
in your daily business decisions.

As you comb through the 50
lists in this year's book, you'll find
a wide range of industries covered.
If you need a new accountant or
lawyer, we've identified the region's
largest firms.

If you are looking for an ad
agency or real estate broker, we've
got you covered there as well.

I'd like to thank our lead
researcher Tim Doyle and Heide
Martin who led the challenging
task of gathering the data and
putting together the lists in this
publication. If you think your
company belongs on any of
these lists please let us know.
You can contact Tim at tdoyle@
nebusinessmedia.com.

In the meantime, we wish you
luck, good health and prosperity
in the year ahead.

Notes: Graduation rate is according to the federal definition (first-time, first-year undergraduate students who complete their program within 150% of the published time for the program). For community colleges, this is three years. Graduation rates are higher when considering students who attend longer than three years. Success rate is graduation rate + transfer out rate. 2021-2022 in-state standard tuition for 12+ credits per semester is \$1,992 and fees are \$246; out-of-state tuition is \$5,976 and fees are \$738. NA= Not available.

(a) Enrollment figures reflect what the Connecticut State Colleges and Universities (CSCU) Board of Regents refers to as headcount; CSCU has a special formula for calculating full-time equivalent enrollment.

BEST Community Comeback

Every community deserves a **COMEBACK**.
Today is all about yours.

For 175 years, our most important investment has been the one we make in each other. We believe that a better world requires a better approach to banking.

We are happy to announce Berkshire's **BEST Community Comeback**, which is our \$5 billion commitment to powering the financial potential of our communities and local economies.

berkshirebank.com

Moving forward together

We've been through a lot together and have proved to be resilient. The approaching new year brings with it new possibilities to help our clients, communities and teammates move forward and prosper — safely.

Using our industry-leading digital tools, like mobile check deposits, Erica®, CashPro® and access to Zelle®, individuals and businesses are finding it easier to do their everyday banking. Across the country, the expertise of our specialists and our teammates in financial centers is helping clients meet all their financial needs at every stage of their lives.

In our communities, we continue to collaborate with local partners, business leaders, experts and academics across the public and private sectors to fuel job growth and financial stability. More than \$400 million of our \$1.25 billion commitment to advance racial equality and economic opportunity is already supporting diverse small businesses and partners, including many recipients here in Greater Hartford who provide job skilling and hiring programs.

We've also increased resources to support our teammates' emotional and financial well-being. Recently, we raised our minimum hourly wage for U.S. employees to \$21 per hour, moving closer to our goal of \$25 by 2025.

My teammates and I look forward to growing existing partnerships and creating new ones as we work together to make a difference. Have a safe and happy holiday season.

What would you like the power to do?®

EDITOR'S NOTE: This is Hartford Business Journal's inaugural list of the state's largest privately-held companies and the rankings are based on number of company employees. HBJ approximated company employee counts using a variety of data sources including the Connecticut Department of Labor, company websites, news reports and press releases, and third-party website data. To help us improve this list we need your help, specifically information on the number of people employed at your company. If you have data to share, or you think your business belongs on this list, please contact Lead Researcher Timothy Doyle at tdoyle@nebusinessmedia.com.

Source: Esri's Updated Demographics - 2021 estimates, Esri Tapestry™ Segmentation. This table lists, in rank order, the wealthiest ZIP codes in the state of Connecticut. ZIP codes with fewer than 100 households and a population of less than 200 were eliminated from the list. Median household income caps at \$200,001; therefore, cities listed with that figure have a median household income of \$200,001 or greater. For further information, visit www.esri.com/bizdata.

Back to Your Regularly Scheduled Programming: Why Returning to the Doctor's Office is So Important

Syed Ahmed Hussain, M.D.
Senior Vice President and Chief Clinical Officer
Trinity Health Of New England

Nearly two years ago, the world came to a halt and everything was put on hold while we grappled with the new reality of COVID-19. Keeping up with annual well-visits has certainly not been top-of-mind for many patients for the past two years. Sadly, doctors across the state are seeing the consequences now, with an influx of non-COVID patients coming into hospitals acutely ill. In a conversation with Dr. Syed Ahmed Hussain, Senior Vice President and Chief Clinical Officer at Trinity Health Of New England, we discuss why annual primary care visits are so critical to your health and well-being, and how they're making it easier than ever to schedule your appointment.

Q: Early in the pandemic, when public safety measures such as staying at home and social distancing were strongly encouraged, many delayed their preventive care and wellness visits. What is your recommendation to the community now, as vaccination rates rise and it is safe to return to care?

A: The message early on in the pandemic was: stay home. And people listened. But, while that helped case numbers drop before vaccines were available, it also led to situations where people didn't seek medical care when they should have. Heart disease, stroke, and cancer haven't gone away just because there is a pandemic. In fact, they're another pandemic in themselves. High blood pressure is

the silent killer, and other chronic diseases such as diabetes need to be managed properly with the support of your primary care doctor. If patients are still concerned or fear that coming to the hospital or doctor's office is not safe... I assure you it is safe! Nearly 100% of Trinity Health Of New England colleagues are vaccinated. Among the several safety protocols in place, we have pre-procedure testing, plus all our locations have safety screenings upon entry, enhanced cleaning measures, and designated COVID-free zones.

Q: Why is primary care so important and a critical step in an individual's journey to health and well-being?

A: Primary Care providers look at the big picture of a person's health and wellness, and have a wider, more holistic lens than a specialist might. They are there to guide patients through their personal health journey, looking at family history, exercise, nutrition, health habits, stress levels, mental wellness, all to get an overall look at the risk or chances for chronic disease as well as provide education and information that could make staying healthy easier for the patient. Prevention is the key for all – preventive screenings, preventive visits, preventive health habits are what allow us to raise our chances of longevity and living a healthy and happy life. Many times, if people are going to their annual exams, we're able to catch issues early. Many cancers, for example, are diagnosed in early stages when patients adhere to their annual exam schedule. Mammograms and Colonoscopies are essential tools for catching cancers that are easily treated when caught early. Two years after the pandemic began, a cancer that might have been in stage one a year ago could have progressed to stage two, three or four. We know it can be a little daunting or scary to go to see a primary care doctor, especially if it's been a long time since you've been, but we encourage you to take this important first step to take care of yourself, and

ensure you have the knowledge and the tools needed to be there to continue to care for your family and live a long, happy life!

Q: What is your message to those who are still hesitant to go see a primary care doctor or say they just don't have time, or life is too busy?

A: Get a telehealth visit scheduled and talk to a doctor right from your home. It won't include all your preventive screenings, but at least it's a start! We understand, life is really busy and so many of us are taking care of everyone and everything else around us: kids, parents, jobs, houses. But who will take care of all of that if you aren't well enough to be here? You matter and your health matters to those who love you, so you need to carve out the time for yourself and your wellness. We listen to our patients, and understand that as a healthcare organization, we need to make it easy. So, we're continuing to expand our services in locations that are closer to home for many. We just opened our latest Access Center in Rocky Hill, with more to come. This has primary care and specialty care all in one location, including blood draw, x-ray/radiology, and physical therapy. And, we just launched online scheduling for primary care appointments. New or existing patients can book an appointment with a primary care physician at their convenience online at TrinityHealthOfNE.org/schedule. Now you can truly take charge of your own health! No middleman, you make your own appointment, with the doctor of your choosing. More options exist now that didn't exist before the pandemic that are making it even easier to access and manage your own healthcare. No excuses with convenience like that! It's time to put your health first. ●

Saint Francis Hospital Provides Award-Winning Care

Saint Francis Hospital, a member of Trinity Health Of New England, continues to provide award-winning, state-of-the-art, best-of-the-best care with the ultimate convenience and value.

For the ninth time, Saint Francis has been named an **IBM/Watson Top 100 Hospital** and is ranked among the Top 15 Major Teaching Hospitals in the United States. Currently, Saint Francis is the **only** hospital in Connecticut to hold a spot on this prestigious list.

Saint Francis has also been named to **Newsweek's list of World's Best Hospitals**, a recognition for consistent excellence, distinguished physicians, top-notch nursing care, and state-of-the-art technology.

In the Fall of 2021, Saint Francis earned an **'A' Safety Grade from The Leapfrog Group**—the **only** hospital in Connecticut to earn an 'A' Safety Grade for the last seven consecutive grading cycles. The 'A' through 'F' Safety Grade is awarded based on a hospital's performance in preventing medical errors, injuries, accidents, and other harms to patients in their care.

Saint Francis has also earned **The Joint Commission's Gold Seal of Approval®** and the **American Stroke Association's Heart-Check mark for Primary Stroke**.

These awards are among a growing list of recognitions from national organizations including U.S. News & World Report, Consumer Reports, the American Heart Association, the American College of Surgeons, Centers for Medicare and Medicaid Services, and more.

Saint Francis Hospital—safe, innovative, and value-driven. World class care, where you live.
